Pauline Marquez
MEMBERSHIP: Walter Caplan
PAST PRESIDENT: Franz von Uckermann

President's Message

Our Chapter membership continues to grow. Our monthly meetings are well attended (it's nice to see Bob and Pauline). Our 2007 Car Show planning meetings are now held on the Monday preceding each Thursday monthly meeting at 6:30 pm at the Monte Cristo Club for those interested in helping to plan next year's Car Show.

This year we are directing our energy to Chapter tours: the July tour to Aries Mufflers, hosted by Greg Martinez, was well attended and lots of fun, informative, and resulted in Bob Marquez unexpectedly getting a new exhaust system.

The August Tour will be the Swap Meet, hosted by Greg Martinez at the Pacific Rod and Gun Club, then two great tours in September: the first to Kelly Park in San Jose and then our fabulous overnighter to Murphy's for the Ironstone Concours d'Elegance.

Remember that **The Choke Rod** is always available online and in full color at www.sfmodelaclub.org.

BREAKING NEWS: There will be a San Francisco Mystery Tour on Sunday, August 20. Meet at Stonestown near McDonald's for a running board breakfast of coffee, juice and pastries. Bring your car, new or old, and bring your friends. RSVP Walter Caplan at 415-753-3280 so he can adequately provision the running board breakfast. This will be a fun Sunday morning and you will be glad you attended.

The Editor, for the vacationing Gary Barrango

The San Francisco Model "A" Ford Club encourages membership in MAFCA, the National Model "A" Ford Club. Benefits include an excellent bi-monthly publication, *The Restorer*, providing technical information and free liability insurance when participating in Club Events.

Dues are \$30 per year. Dues for new members may be paid at any time. Dues paid between November 1 and December 31 are valid for the remainder of the year paid plus the following year. With your check send in your name, spouse's name and complete address. An optional \$10 initiation fee includes a club pin, decal, badge, windshield card and a back issue of "The Restorer" magazine. If you use Mastercard or Visa include the expiration date and your signature. Membership includes a subscription to *The Restorer*.

The Lost Art of Woodgraining Is Found Again

At the 2003 Pebble Beach Concours, seven cars sat overlooking the blue waves of the mighty Pacific Ocean; besides being among the nation's finest classics, they had one more thing in common – each featured woodgrained interior parts restored by Grain-It Technologies. At the close of the show, Grain-It cars were first, second and third place winners.

Woodgraining, the virtually universal finish for interior parts like dashboards and window trim beginning in the late 1920's, became a lost art after it fell out of fashion in Detroit in the early 1950's. As enthusiasts began restoring cars from that era, they faced a difficult problem in refinishing their woodgrained parts. They could try to make the best of what they had, search out better parts from other original cars, or look to craft stores. Today there are better options.

When Ed Westlake, his son Evan, and John Herron founded Grain-It Technologies, they were fortunate to have a head start. An older gentleman had passed on his collection of many key parts surviving from the industry's heyday. Using those original items as a starting point, Evan and John experimented with modern paints and products, finally coming up with a successful process that combines the luxurious look and feel of the vintage craftsmanship, with the vastly improved colorfastness and essentially unlimited durability of modern finishes.

Based in Winter Haven, Florida, Grain-It Technologies offers an in-house refinishing service and two woodgraining kits for do-it-yourselfers. We visited Grain-It for an exclusive look at how the woodgraining process works. They were very open and eager to share their knowledge. At the end of the process, the refinished parts looked spectacular. Photos probably don't do them justice. Even better, with the super hard urethanes and UV ray protection engineered into their refinishing materials, the new parts will last virtually forever.

We saw several parts still with their original finish, and Evan pointed out how the factory standards allowed for a lot of skips and flaws. Grain-It does not attempt to recreate flaws and skips unless specifically asked to.

Using a urethane roller to transfer the pattern

In its early days, Grain-It Technologies received a large cache of original woodgraining materials, including original handmade master engraving plates, and an invaluable 1938 book of samples from the Oxford Varnish Corporation; a leader in industrial Woodgrain finishes. Grain-It uses the samples to maintain sharp accuracy of their finishes.

When receiving an order, a key part of the inspection is finding an area of original Woodgrain that has been protected from fading. It could be on the bottom edge where the steering column bolts up, beneath a door or panel, or beneath a metal radio bezel. The area of original finish that was exposed to sunlight, smoke, abrasion, oxidation and pollution has dulled and darkened. The new Woodgrain finish will make the parts look like when they were new.

Color is matched to the fresh, unfaded areas. Charts are used to determine the exact tones of the original finish. Precise formulations of pigments are then custom blended for an exact match. It's common to find codes stamped on the back of parts that identify the pattern.

All parts are then

Butt Walnut is the correct grain for a Model A A-400.

stripped by bead blasting. Then, any corrosion, dents, dings, cutting and alterations are carefully corrected by hand. Holes require contacting the owner, as some of them were added by dealers for accessories.

Once the research and documentation is completed, all old finish removed, and any needed metal repairs have been made, it's off to the paint booth for "prime time". A "high build" (thick, with lots of solids) urethane primer is used. When the paint is dry, the color tone can be

tweaked by covering the whole surface in pigment.

The plates that are used for the actual printing are made from the master plates, hand engraved decades ago by artisans. These master plates are also the source for the plates included in the kits. Woodgraining was a huge industry, used not only in the automotive field, but also in furniture, aviation, cash registers, interior design and many others.

The plate to be used is laid flat on a clean table, then the pigment – it's not paint – also called graining compound, is placed on the plate and draws across it with a steel "doctor blade." The plate is full of tiny "holes" that hold the pigment in the pattern of the grain. The plate must be fully loaded side-to-side and top to bottom, with no light or dry spots. With the plate loaded with pigment, a roller is selected and rolled across the plate in slightly less than one full rotation to prevent overlap. The soft urethane rubber picks up the pigment and pattern and conforms to the contours as the pigment is transferred.

Because of their many contours and corners, many parts cannot be covered in one pass. There are several techniques for getting full coverage on difficult parts. First, clean off the finish. It is easily wiped off with a clean towel or lint-free rag before it dries. Then it's ready for the next coat. "Seams" between two areas are hand blended with a brush, connecting the grain lines smoothly from one area to the next. When the results look right, the process is repeated until the part is covered with a satisfactory pattern.

Once the grain pattern is complete and dry, the part is sprayed with clear urethane. When dry, the urethane will provide a very hard, durable protective layer, unlike the fragile, fade prone original lacquer finish. The urethane clear coat is not affected by sunlight and actually provides UV-ray protection, so the new woodgraining will last indefinitely. When the urethane has fully dried, it is polished to a beautiful glossy luster. Then end result looks like a million bucks. Do it yourself kit prices are \$259 - \$399.00 and include supplies and a DVD instructional video. Grain-It also does in-house woodgraining, current pricing runs \$1,000 V8 Ford dash, \$1200 for '46 Cadillac dash. Typical sedan with dash and 6 garnish moldings \$2,200. This includes stripping to bare metal, priming, base coat, woodgraining, double urethane clear coats, buffing, packing, shipping and insurance.

1930's Film Fashion

The world of film played a heavy role in the fashions of the thirties. Clothing was sumptuous and incandescent. Evening attire possessed fluidity that was perfect for the lights and movement of the cinema. The dance films of Fred Astaire and Ginger Rogers contributed to the shimmering, floating fashion styles in these black and white movies.

Films had a huge influence on trends. The Hays Office imposed censorship limitations on designs restricting designers from revealing too much. They made evening clothes with bare backs in an attempt to reveal a sexy look without being controversial or showing too much cleavage. Travis Banton, Howard Greer and Adrian were among the influential designers who worked in film. Women imitated stars but needed clothes suitable for all occasions. Many witty hats evolved in this decade, but the cloche was worn the most among ordinary people until the war years. To raise morale they were then made in every shape and material available. Late in the decade there were crazes for Tyrolean hats, the fez and various nautical styles. Berets, turbans, and snoods were among the big sellers of the 40's when fashion resumed after the war. Period hats were reinterpreted from any time in the past, particularly medieval.

In such strained times status symbols were everything. Women wanted furs over their broad shoulders and small wraps or fox. Silver fox gave women status. Jewelry was simple and modern. Stones had a square-cut. Cartier was the first jeweler to mix stones (outside state jewelry) for their famous panthers and favorite "service stripe" bracelets.

Until the war, fashion was feminine and standard. Films supplied the concept of the total image for a woman. Shapes were classic but more interesting than the 20's chemise. The 20's fashion designers were uniform in their ideas. The female form was highlighted more than ever with clothing that was draped and detailed. The sensuous female feel was interrupted by the economies forced on the clothing industry, by the war office, but the look returned at the end of the next decade. By the late 30's Hollywood, Balenciaga, Vionnet in Paris and Hartnell in England came out with hats of the 1890's extravagance of luxurious, light, and almost Winterhalter for the 20th century. Mae West had been harking back to Belle Époque in her evening wear throughout the 30's and "poured in" was a phrase coined in the 30's, just for her.

For more on fashion in the 30's, stay tuned...

Minutes of the San Francisco Bay Area Chapter
Model A Ford Club of America
July 13, 2006

The meeting was called to order by President, Gary Barrango at 8:00 P.M. The Minutes of the June 9, 2006, meeting were approved as written.

Reports of Officers

President: The Car Show/Executive Committee will meet on the Monday preceding the Thursday monthly meeting at the Monte Cristo Club at 6:30 P.M. Club members are invited to attend. The August committee meeting will be on Monday, August 7th.

The Club has received correspondence suggesting that MAFCA may no longer provide insurance coverage for component activities. MAFCA will update the components following the MAFCA National Convention in Mansfield Massachusetts on July 17, 2006.

Vice-president: The Tour to the Aries Muffler Factory was well attended and a very enjoyable Tour. Two Club members were nominated for the Bent Rod Award, the Marques family and Mike Cunneen. Mr. Cunneen was the winner.

Secretary/Tour Chair: The only correspondence received was in regard to MAFCA sponsored insurance coverage. The next Tour will be the Club sponsored Swap Meet at the Lake Merced Rod and Gun Club. Contact Greg Martinez for vendor and seller registration forms, 415.725.2449 or 415.621.0500.

Treasurer: Dues for the 2007 year will remain at \$25.00. The Club has over 40 paid members, many of whom do not belong to MAFCA. The Club continues to hold in bank accounts sufficient funds to pay outstanding debts. The Club donated \$50.00 to the Model A Ford Foundation.

Editor/Membership Chair: The Club mails approximately 90 newsletters each month, and also sends full color newsletters in PDF format to club members by email. The Choke Rod is an award winning publication. The Club commends the Editors for the time they are spending and the job they are doing keeping the Club interested and informed.

FOR THE GOOD OF THE ORDER: On August 10, 2006, the pre-meeting dinner will be at 6:00 P.M. at the Connecticut Yankee, corner of 17th St. and Connecticut.

Refreshments/Entertainment: July refreshments were provided by Barry Kinney. Bruce Baird will provide August refreshments. We would like to incorporate a "Show and Tell" segment into our meeting. If you have something that might be of interest to our members, a broken part, etc., bring it to the meeting and tell your story.

The meeting was adjourned at 9:30 P.M. The next meeting will be on Thursday, August 10, at 7:30 pm, at the Monte Cristo Club at 136 Missouri St. in San Francisco.

Minutes respectfully submitted by Barry Kinney, Secretary.

SF Model A Club Monthly Meetings: The meetings continue to be held monthly, the second Thursday of each month at 7:30 P.M. The location is the Monte Cristo Club at 136 Missouri Street in San Francisco. The meeting place is located in safe neighborhood and parking is convenient. If you have questions or need directions, call Gary at (415) 821-2628 (daytime)

The next scheduled meeting will be at 7:30 PM on Thursday, August 10, 2006
A number of club members gather for dinner before the monthly meetings at 6 pm
Please feel free to join us -- August dinner location will be The Connecticut Yankee,
corner of 17th St. & Connecticut, due to a kitchen fire at Cafe Cozzolino.

MODEL A FORD CLUB OF AMERICA, INCORPORATED

Don't Miss These Exciting Events! Mark Your Calendar Now!

Sunday August 27 – Swap Meet on Lake Merced at the Pacific Rod and Gun Club in San Francisco. From Sunrise on \$15 for pre-registered sellers - \$50 for pre-registered vendors – FREE ADMISSION FOR BUYERS – Sponsored by the San Francisco Bay Area Model A Ford Club – Hosted by the Pacific Rod and Gun Club at Lake Merced. For reservation information go, to www.SFModelAClub.org or call Greg Martinez at 415.621.0500. You can also reach Greg at 415.725.2449.

Sunday September 10 – 6th Annual Antique Autos in History Park (Kelley Park) in San Jose. This event features Antique Exhibits, a Dixieland Band, Food from Peggy Sue's, Antique Motorcycles, Glass Sculpturing, Ceramics, Quilting, Beading, Wood Carving, Fly Tying, a Working Blacksmith Shop, a Working Trolley and Much More.

The event is free to all participants. To bring a vehicle on the grounds it must have been in use from 1945 and earlier.

Meet a Stonetown near the McDonalds at 7:30 A.M. – Leave at 8:00 A.M. We will stop again at the junction of 92 and 280 and again at Woodside Road at 8:30 A.M. to pick up anyone who lives South of S.F. and would like to join the tour. If you plan to attend, give the tour chairman a “Heads-Up” by calling 415.282.2789 – leave a message.

Friday through Sunday September 22 – 24 Overnighter to Murphys for the Ironstone Concours d'Elegance. This tour features stops at historic Knights Landing and Columbia State Park. Bring a running board lunch for Friday. There will be a group dinner on Friday and Saturday night following the Concours. Accommodations are limited and will be on a “first come- first served” basis. Call Barry to reserve a room 415.282.2789. **Do not try to contact Murphys Hotel – They are sold out.**

I am still working out the details but the plan is to leave sometime after 9:00 A.M. We should arrive at Murphys around 4:00 P.M. This assumes that there will be no unscheduled stops along the way. After we check in and freshen-up there will be a get together in my room to toast our safe arrival with champagne and light snacks. Friday night dinner options are still being considered.

On Saturday night following the Ironstone Concours we will dine at the historic Murphys Hotel. Reservations have been made for fifteen people.

Seven of our reserved rooms have been spoken for. There is one room left. Call me if you would like to go with us to Murphys and need this room. Barry
